

10 Facts About the NBSRT Website

(A Brief History)

TIMELINE

2000	
2004	Saint John Website
2005	Sussex Motion
2006	1 st Gen Prov Website
2012	2 nd Gen Prov Website
2016	Committee Renamed
2020	3 rd Gen Prov Website

The Saint John Branch of the NBSRT led the way in the fall of **2004** when it was the first to introduce a branch website in the days when not every retired teacher had an internet connection or even a computer. Those members who were “connected” could read the branch’s minutes and reports, check the constitution, get contact information for the branch executive, and much more. Suddenly, branch information was at a member’s fingertips – quite literally.

The future was clear, and six months later in **May 2005** at the NBSRT Biennial Meeting in Sussex, a motion was passed to create a provincial website committee whose task it was to create a provincial website. Members from the Bathurst, Carleton-North York, Restigouche, Moncton, and Saint John branches made up the original committee. Larry McPhee of the Saint John Branch was the first chair of the NBSRT Website Committee, and Kathy Dalling of the Saint John Branch was asked to be the webmaster since she had experience setting up the NBSRTSJ website. Less than a year later, on **February 14, 2006**, the first generation NBSRT provincial website was launched on the NBTA web server.

Committee Chair, Larry McPhee, gave the Website Committee report to the Board of Directors in September 2006, but by the AGM in May 2007, Marian Humphrey had succeeded Larry as the chair and reported on behalf of the committee.

By 2012 it had been six years since the website’s inception, a long time in the world of technology. The Website Committee made the decision to investigate using a professional website developer for an upgrade to the site. Eventually Gary Nightingale at *IBS Ltd* was selected to design and manage the website. The second generation website was launched on **September 25, 2012** when Website Committee Chair, Marian Humphrey, introduced the upgraded site to the Board of Directors at their fall meeting.

It wasn’t long before the Website Committee members found themselves responsible for not only the provincial website, but also for an NBSRT Closed *Facebook* account and an NBSRT *Twitter* account. After extensive discussions among committee members, it was decided at a meeting in **October 2016** to recommend to the NBSRT Executive that the *Website Committee* be renamed the **Online Media Committee**. The Executive approved the recommendation.

TIMELINE

2000	
2004	Saint John Website
2005	Sussex Motion
2006	1 st Gen Prov Website
2012	2 nd Gen Prov Website
2016	Committee Renamed
2020	3 rd Gen Prov Website

In early 2018, the Online Media Committee began to think about upgrading the website to a 3rd generation edition. Since the 2nd generation website had been launched in 2012, members of the committee had gradually taken over more and more of the responsibility for updating the content on the website; however, there were still areas that had to be updated by the website manager. During this period, the committee also became aware of interactive website platforms that would enable more online participation by the committee members as well as the general membership.

Dale MacRae (MARTA) became the Online Media Committee Chair in June 2020. During the summer of 2020, and with support from the Provincial Executive, the committee contacted three website developers, including *IBS Ltd*, about creating a new provincial website. The Online Media Committee’s recommendation to accept *CBT Technologies* website re-development proposal was accepted in a motion passed by the Executive at the September 2020 meeting.

The 3rd generation NBSRT provincial website was launched on **December 1, 2020**.
